

Naga Charan Kumar Reddy Mukkamalla

Full Stack Developer

👤 Profile

Over 4+ years of experience in Full-Stack Development, specializing in creating user-centric, scalable web applications. Proficient in front-end development using JavaScript and React, and back-end development with microservices architecture, MySQL, and Elasticsearch for fast and efficient data retrieval. Skilled in working within Agile environments, gathering requirements, designing tailored solutions, optimizing performance, and collaborating with cross-functional teams to deliver impactful results.

💼 Employment History

Full Stack Developer at **Berkadia Services India Private Limited**, Hyderabad

April 2023 — Present

Project Name: Request Tracker

Description:

This project aims to enhance the Loan View portal by adding a self-service request tracking feature reducing reliance on high-cost voice calls and emails. This improvement will streamline operations enhance borrower engagement encourage timely compliance and create opportunities for increased refinancing through a better loan servicing experience.

Responsibilities:

- Developed **Responsive UI Components** to enhance the user experience.
- Developed and maintained **Scalable Backend Solutions** using **Microservices Architecture**
- Built and integrated **RESTful APIs** for seamless front-end and back-end communication.
- Designed and optimized **MySQL Database Schemas** to support efficient backend operations.
- Identified and **Resolved Security Vulnerabilities** via **Stack Rox scans**, implementing necessary fixes.
- Reduced support calls by **30%** and improved request processing efficiency by **25%**.

Project Name: De-risking Cash Movement Operations

Description:

At Berkadia, cash movement processes are managed through e-Forms and approval workflows for both cash and non-cash requests. Once submitted, the Payment Processing group processes these requests and interfaces with banks to move funds. This application handles **\$70Bn in annual cash movement operations**, ensuring secure and efficient financial transactions.

Kubernetes

Docker

Hobbies

Travel Exploration

Gaming

Swimming

Photography

Watching Movies

Responsibilities:

- Developed **Reusable React Components** based on Figma designs, optimizing rendering with **Lazy loading, and Memoization**.
- **Designed and Built scalable microservices using Node.js, Event Store, and Elasticsearch** for efficient cash operations.
- Implemented **CQRS with Event Store**, ensuring reliable **data consistency** and optimized query performance.
- Integrated Elasticsearch for real-time search and fast retrieval of cash movement records, **reducing search latency by 50%**.
- Optimized **Elasticsearch indexing and queries** to enhance search performance and scalability.
- Provided **instant production support**, quickly resolving user-reported issues for seamless application performance.

Project Engineer at Wipro Limited, Bengaluru

November 2020 — April 2023

Project Name: Lloyds Banking Group-Payments

Description:

The Custom Web Application (CWA) was designed to streamline category payment processes by enabling users to efficiently manage recipients, schedule payments, and synchronize data in real time between the front end and the database. The application featured a responsive user interface and robust database integration to ensure seamless payment workflows and a smooth user experience.

Responsibilities:

- Designed and developed **Interactive Dashboards** for real-time tracking of payment activities.
- Integrated **REST APIs with Dynamic UI Components**, ensuring seamless data updates without page reloads.
- **Refactored existing UI codebase**, improving maintainability and reducing redundancy.
- **Optimized complex form validations and error handling** for a smoother user experience.
- **Collaborated with UX designers** to ensure intuitive navigation and accessibility compliance.

🎓 Education

Bachelor of Technology, G. Pulla Reddy Engineering College, Kurnool

May 2016 — April 2020

Post-Secondary Education, Sri Chaitanya College, Vijayawada

June 2014 — March 2016

Secondary Education, Z.P.H School, Kamalapuri

June 2013 — March 2014
